

CONTROL FLOW INC.®

FLOCON MO-COMP **WESTECH** RETSCO

Breach Block Connector™ FOR CONNECTOR APPLICATIONS

PATENTED

(ASSEMBLY SEQUENCE)

BOP Stack Choke and Kill Line Breach Block System

The **Breach Block Connector™** provides a safe, reliable, and inherently strong mechanical connection that is easily made up by a single rig hand requiring no special tools, adapters, or rotational alignment of either connector half. Adaptable to new, and pre-existing connections, meeting the industries full range of, flange size requirements, and working pressure ranges. (See Reverse Side)

Control Flow/Flocon Products

Taming Drilling And Production Pressures Worldwide

Control Flow Breech Block™ technology used by BP on the Transocean Enterprise Drillship.

BENEFITS:

- Simple and quick make-up of choke and kill lines to multiple BOP stack connections, wellheads, hydraulic lines, mud lines, or any other connection requiring a strong, fast, easy and pressure reliable connection.
- Adaptable to new or pre-existing connections and working pressures. Provides superior safety due to ease of handling and simple assembly in the field.
- Utilizes proven seal technology, which is reliable and economical for its application.
